Subject: Application for Class 2 Permissive Change to FCC Authorized Transceiver with FCC ID: AZ492FT7118

Dear Sir/Madam,

A permissive change is requested for the subject transceiver which is marketed in the United States and elsewhere.

A. DESCRIPTION OF PRODUCT CHANGES:

Tamawira notified Motorola Solutions that they need to change to a new supplier for inductor component because they will end the production. This component is used in the harmonic filter for UHF1 output network.

B. PERFORMANCE DIFFERENCES:

EME has been assessed and no degradation was found. However, EMC found degradation for UHF band, while other bands does not observe any degradation as compared to the previous filing. The data continues to be compliant to the FCC limits.

C. CONCLUSION:

This radio continues to meet all FCC emissions requirements for which authorization was granted.

Sincerely,

Arine Lee
FCC/IC Certification Manager
